NENAD **MISIC**

Novi Sad, Serbia
n.misic@outlook.com · **https://shonmisic.github.io**

Software Developer with 2 years of experience in software design, setup and development, mostly working in the Backend and Cloud development with some Frontend experience. Started out as a Java developer, switched to C# and learned it from scratch. Highly adaptable and a fast learner, always striving to understand and anticipate the customer's needs and requirements.

EXPERIENCE

OCT 2018 – PRESENT
.NET SOFTWARE DEVELOPER, LEVI9 TECHNOLOGY SERVICES

Built an accounting engine, notification engine and file generation and parsing services. Successfully coordinated a difficult integration between a client's system and an external party's system, which included daily communication with the external party's technical staff. Responsible for introducing a whole team to a new architectural design approach, helped them adopt it and was responsible for setting up project templates. Practiced Agile. In between projects became a Certified Microsoft Azure Developer.

MAR 2018 – APR 2018
JAVA SOFTWARE DEVELOPER INTERN, LEVI9 TECHNOLOGY SERVICES

Created an employee management system. Learned from scratch both Spring Boot and Angular and used them to implement the said system, which included authentication and authorization.

EDUCATION

OCTOBER 2018
MASTER'S DEGREE IN INFORMATION TECHNOLOGY, FACULTY OF SCIENCES

Master's thesis included learning a whole new stack of technologies (MongoDB + Express.js + Angular + Node.js) and use it to develop a "crime monitoring app". Received the "Dositeja" scholarship, awarded only to the best students in the country. Was involved in faculty's public promotions in high schools.

OCTOBER 2017
BACHELOR'S DEGREE IN INFORMATION TECHNOLOGY, FACULTY OF SCIENCES

Getting the degree involved developing a "timetable creator app" in Java. Was the recipient of the "Award for Best Students" in the University of Novi Sad for 3 years in a row. Received the "Dositeja" scholarship, awarded only to the best students in the country.

SKILLS

- .NET Core
- SQL Server
- Web API
- Microsoft Azure
- GraphQL
- Angular
- Entity Framework Core
- Clean Architecture
- Git
- Azure DevOps
- JIRA
- Microsoft Teams / Slack

ACTIVITIES

Involved in promoting the company on multiple occasions, which included holding presentations and QA sessions on different universities and connected the employer company with diverse NGOs. Initiated, prepared and held a company-wide knowledge sharing presentation regarding experiences on a particular "Clean Architecture" based project.
